

# Masterclass Series

Orthopaedic Masterclass Series 2011

  
The Wellington Hospital

## Masterclass Nine

### Lumbar Spine Surgery Options

Tuesday 18 October 2011

Demand for treatment of the lumbar spine is increasing and many new procedures are being evolved. When conditions do not respond to other therapies, surgery may relieve the pain caused by back problems or serious musculoskeletal injuries. In tonight's session we will look at some of the causes of low back pain and discuss treatment options such as artificial disc replacement and surgical options for chronic Sciatica.

#### Topics and Speakers

Is Lumbar Disc Surgery really a valid option for Sciatica?

Adrian Casey

Lumbosacral anomalies and their relevance to low back pain

Stewart Tucker

Intradural tumours - the In-betweeners

Adrian Casey

The role of total artificial disc replacement in discogenic low back pain

Stewart Tucker

#### Venue

Huxley Lecture Theatre, London Zoo, Regents Park, London NW1 4RY.

Please note that free parking is available in the Zoo Car Park from 6pm.

#### Timings

Drinks reception: 18.00, Talk starts 18.45, Buffet dinner: 20.15
